MYSTIC LAND

Solo show by Vivian East

These paintings represent my travels across Canada over a period of four years. My husband and I drove thousands of kilometers from Ontario to B.C. and up to Arctic Ocean, camping in national, provincial and territorial parks in our truck camper. We explored almost every part of Northern Ontario that we could by road and across the prairies to B. C., Yukon and Northwest Territories.

I have chosen to paint these parts of the country to highlight some regions that many southern Canadians have never seen. Moreover, I wish to communicate the powerful effect that the natural landscapes have on me.

This collection illustrates the power of nature to transform consciousness. The mystical places in these paintings exist in a time and space that are far beyond our current human existence. But they also speak to us of our deep connection to the land. I am compelled to paint images that show our existence in nature. Even though the only human in the landscape is the viewer, the connection is palpable.
